

GOVERNMENT OF ANDHRA PRADESH
IRRIGATION & CAD (PW) DEPARTMENT

Memo.No.12440/Reforms/2006-1

Dated 2nd May 2006

Sub:- Calling of tenders for works Guidelines Issued - Regarding

During review of progress of different works in progress and proposed works, it has been noticed that on many occasions several addendums are being issued with certain tender notices even when the basic scope of work has undergone change. This is not considered good practice. The Chief Engineers, Superintending Engineers are therefore, directed to consider proceeding afresh in cases where the basic scope of the project has undergone significant change and take necessary permission of the Government.

2 It is reiterated that no tender shall be called without proper administrative sanction.

RAJIV RANJAN MISHRA
