

GOVERNMENT OF ANDHRA PRADESH
FINANCE (WORKS & PROJECTS-F8) DEPARTMENT

Note No. 4777/F8(A1)/07-2

³⁴
Dt: 19.06.2008

Sub: Departmental execution of Works by Engineering Department - Putting on hold - reg.

As per para 150 of APWD 'D' code the works executed by the Department are carried out by one of the under mentioned three methods.

- (i) Departmentally by the Employment of daily labour
- (ii) by piece work agreement in form Public Works Department V-51 and
- (iii) by an agreement in form Public Works Department V-53 on a lump-sum tender system, as defined in A.P. Detailed Standard Specifications.

The Departmental Execution of Works involves two items, of material and labour.

The Procurement of material has been dispensed with since 1997 and therefore materials are to be purchased by the Department under provisions of Code 125 of A.P. Financial code. This, again involves calling tenders for which all the Departmental procedures are to be followed, and the purpose of carrying out urgent works within a short time will not be served.

Secondly, engagement of labour is prohibited by Government by Act 2 of 1974 and therefore engaging labour by the Department for execution of works is not possible.

Under the above, circumstances, the Engineering Departments of I & CAD, R & B, P.R.E.D., P.H. (Engg.) and all District collectors are requested not to resort to Departmental Execution. Instead user groups may be entrusted with urgent works which otherwise would have to be taken up departmentally.

B.B.S.SARMA
DEPUTY FINANCIAL ADVISER & EX-OFFICIO
DEPUTY SECRETARY TO GOVERNMENT
